

## Kenya Customs requests Advance Cargo Information, effective 6 November 2017

### What is this all about?

The Kenya Revenue Authority (KRA) that includes Kenya Customs has announced that inbound and outbound shipments to/from the Republic of Kenya must be submitted in advance, [as of 6 November 2017](#).

The carrier is required to send information for import, export, transit, FROB in advance of the flight arrival/departure to/from Kenya (wheels up).

### What do I need to do to comply?

All airlines are to send Master Air Waybill (MAWB), House Air Waybill (HAWB), and flight manifest information.

### How can CHAMP help?

CHAMP offers a filing service that is compliant with Kenya Revenue Authority and Kenya Customs' mandatory requirements via its Traxon Global Customs (TGC) service.

### What do I need to do to connect to TGC?

Carriers only need to send their FWB, FHL & FFM to the CHAMP TGC service on flight departure and TGC takes care of the rest – connecting to Customs, and filing the correct customs messages on time. You will need to provide flight schedule information to CHAMP but that is part of the TGC solution offering.

### How do I find out more?

Just contact your local CHAMP Service or Sales Manager or [marketing@champ.aero](mailto:marketing@champ.aero) for details and we can arrange to sign you up for Kenya Customs filing service.
